**SECOND FACTUAL UPDATE SUPPLEMENT TO
REPLY TO OPPOSITION TO PETITION FOR RECONSIDERATION**

In a prior Factual Update filed by Roy E. Henderson ("Henderson") on May 15, 2000, Henderson advised the Commission of the filing of an application by the licensee of KRNX(FM), Victoria, Texas, for a license of its downgraded facility on channel 236 in Victoria. As noted there, KRNX had requested and received FCC permission for a requested "instant downgrade" to reduce its operation and classification from 100,000 watts on channel 236C1 to 13,000 watts on 236C3 and had actually completed that change as of February 1, 2000. As previously noted, the reduction in classification on channel 236 in Victoria in the Commission's Table of Allocations had the immediate effect of opening a wide new area for transmitter location at Caldwell and Henderson proceeded to file for a new transmitter location, fully compliant with all FCC rules, on February 24, 2000, consistent with that change in the Table. That application remains pending at this time.

019

This is to further advise the Commission^{1/} that as of July 31, 2000, the Mass Media Bureau granted the license application for the downgraded facility that had been filed on May 1, 2000 by Victoria Radioworks, Ltd, licensee of KRNX(FM), and the process is fully completed. Public Notice of the grant of the new license for the downgraded facility was included in FCC Report No. 44790, released on 8-3-2000. Attached hereto for the record is a copy of page one of that Report along with page 7 which includes the item relating to the grant of the KRNX(FM) downgrade license.

Wherefore, it is respectfully submitted that the further updated factual information submitted herein should be considered in conjunction with this proceeding.

Respectfully Submitted,

ROY E. HENDERSON

^{1/} Since all Applicants and Petitioner's are expected by the Commission to maintain factual accuracy in what they have filed with the Commission and to update such information when it changes, Henderson does not believe that a Motion for Leave to Accept the instant pleading is required. Nonetheless, to the extent that it might be found under any circumstance that such leave is required, it is hereby requested.
